Flue: Continuation by owner

23. SPECIAL EQUIPMENT: Assorted tile nlay in wading pool

24. WADING POOL: Location: Shallow end of pool Plan Sketch: Yes No Size: per plans
Shape: per plans Depth: Maximum: 18" Minimum: 12"
Inlets: 4 Spray: _____
Interior Finish: marble Tile: 6" x 6"
Beam: Coping Filter: Main pool system

25. DECKS: PADDOCK POOL BUILDERS, INC. is a swimming pool construction company and is not primarily interested in doing deck construction. The reason for this is that even if we subcontract the work, our price is not competitive with that of local labor. High wages, travel allowance and scheduling difficulties combine to make this so. It is also often necessary to allow for fill settlement for some time before deck installation which would double our "on the job expense" were we to return and complete the work. We fully realize that some owners require that the decks be included as part of the pool contract due to the lack of good local workmanship or a desire to make only one contract even though the deck work may be included at a figure slightly higher than obtainable locally. Under these conditions or on jobs calling for large deck area, we will, if absolutely necessary, contract for deck work.

Subbase: Bank Run Gravel _____ Crushed Stone _____ Sand _____ Furnished by: _____
Graded by: owner
Square Feet: _____ Plan Sketch Yes No Construction _____

Elevation and Approximate Pitch: _____
Installed by: _____
Under this contract _____ Separate contract _____

PADDOCK RESPONSIBILITY: For deck work done by others, Paddock will be responsible according to Section 4 of these specifications. All work done by others must be checked through Paddock to assure proper tie-in with pool construction.
